

# How to Prepare for a Showroom Visit

We want to make your stone shopping experience as smooth and seamless as possible. To help you make the most of your Rocktops showroom visit, we've put together a list of important things to bring, and tips to keep in mind when choosing your stone countertops.

## **Measurements**

### **Bring Measurements for Project Focus Area**

- ❖ For the best results, measure any countertop length from wall to wall and the depth.
- ❖ Use the space in the templates to draw a diagram of the countertop space. Include the spaces for sinks, cooktops, bar sinks, bar tops, islands, peninsulas, and more. If possible, indicate where there are walls in the space.

## **Pictures**

### **Bring Pictures of Your Current Space**

- ❖ Grab a few photos of the current layout to help direct you in your decision.

### **Visit Quality Granite's Gallery and Pinterest**

- ❖ Check out our Gallery and our Pinterest board to inspire your design.

## **Inspiration**

### **Save Project Inspiration Pictures**

- ❖ Bring any pictures you've collected that inspired your project design.

## **Paint Material Samples**

### **Bring Any Paint & Material Samples**

- ❖ Bring along any materials being used in the same project room: paint, cabinets, drawers, fabrics, flooring, etc.
